

## PRESCRIPTION REFILLS

For your convenience, The Stern Cardiovascular Center has a prescription refill line. If you need a refill or were given sample medications, but were not given a prescription, please call 901-271-2285. In order to refill your medications, we will need your full LEGAL name, your date of birth, your phone number, and the name, dosage, and frequency of your medication. We need three working days to be sure your medicine is called in correctly. Please don't wait until your medicine has run out to call. This will often result in a few missed dosages.

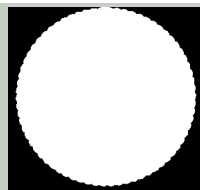

## LIPID CLINIC

If your cholesterol is high, so is your chance for a heart attack, a stroke, or blockages in your leg arteries. As your cholesterol is lowered, so are your risks for these problems. The Lipid Clinic provides information about foods that are good or bad for your cholesterol levels. Emphasis on some degree of exercise is also encouraged. Small group and individual sessions are available. Most insurance plans cover this. Please call 901-271-1000 for an appointment with the Lipid Clinic.

## COUMADIN CLINIC

If you are on the blood thinner, Coumadin, you need to have your protime (INR) monitored on a regular basis in our Coumadin Clinic. You may come from 8:30 a.m. -3:00 p.m. Monday through Friday. No appointment is needed to have your blood checked. Your results will be immediately available so your Coumadin dose can be adjusted, if necessary.

## Patient Telephone Number Guide
